Walid Ayoub

Date of birth: 18/11/2004 | **Nationality:** Palestinian (Autonomous Palestinian Territories) | **Gender:** Male | **Address:** Lebanon (Home)

EDUCATION & TRAINING

01/10/2022 - 27/06/2025 - SAIDA, LEBANON

BACHELOR OF SCIENCE IN COMPUTER SCIENCE- LEBANESE INTERNATIONAL UNIVERSITY (LIU)

• Programming fundamentals (C++, Java, Python)

• Object-Oriented Programming (OOP)

• Data Structures and Algorithms

• Database systems (SQL, MySQL)

• Web Development (HTML, CSS, JavaScript, PHP)

• Software Engineering principles

• Operating Systems and Computer Networks

• Introduction to Artificial Intelligence and Machine Learning

• Natural Language Processing (NLP): text preprocessing, tokenization, basic text classification concepts

• Problem-solving and analytical thinking

• Teamwork and project-based development

Level in EQF: 6

19/01/2026 - Current - SOUTH LEBANON, LEBANON

FULL-STACK WEB DEVELOPMENT TRAINING- DIGITAL HUB – UNRWA

• Web fundamentals: HTML5 (semantic structure, forms, accessibility basics)

• CSS3: responsive layouts, modern styling practices

• JavaScript (ES6+): DOM manipulation, events, async programming

• Version control: Git & GitHub (collaboration workflows)

• UI/UX basics: usability and layout principles

• Agile / Scrum fundamentals and team workflows

• Front-End development using React (components, JSX, state, hooks)

• Basic TypeScript concepts for scalable front-end code

• Design principles: separation of concerns, high-level SOLID concepts

• Back-End development with Node.js and Express.js

• REST API development and middleware handling

• Databases: MySQL (SQL, joins, normalization) and MongoDB (NoSQL basics)

• Authentication and authorization concepts (JWT basics)

• Full-Stack development fundamentals (MERN stack overview)

• Introduction to deployment concepts and environment configuration

• Project-based development and teamwork

Level in EQF: 5

● WORK EXPERIENCE

01/10/2025 - 16/01/2026 - SAIDA, LEBANON

WEB DEVELOPER OCTA SOLUTIONS

• Developed responsive user interfaces using HTML, CSS, and JavaScript

• Implemented front-end components with React

• Built basic back-end functionalities using Laravel (MVC structure, routing, controllers)

• Integrated front-end components with backend APIs

• Worked with databases and CRUD operations in Laravel

• Collaborated with designers to translate UI/UX designs into functional interfaces

• Participated in debugging, testing, and performance optimization

• Worked in a team-based development environment using Git

• Gained practical experience in professional full-stack development workflows

● SKILLS

Javascript (React.js) | laravel - php framework | CSS & HTML | JavaScript | PHP | use software design patterns | computer programming | Git/Github, Docker, Gitlab | Databases (MongoDB MySql PostgresSql) | Tailwinds

● LANGUAGE SKILLS

Mother tongue(s): **ARABIC**
